## CONTACT

Phone: +91 8523060759  
Mail: naganiroop2005@gmail.com

Address: Hyderabad, India

## SUMMARY

Motivated and detail-oriented B.Tech Artificial Intelligence student with strong fundamentals in data structures, algorithms, and backend development. Experienced in designing, developing, and debugging full-stack applications using Node.js, Express.js, and MongoDB. Passionate about building scalable, high-performance systems and eager to contribute to ShareChat's engineering team while enhancing user experience through reliable and efficient software solutions.

## SKILLS

- Programming:** Python (Intermediate), Java (Intermediate), C (Intermediate), JavaScript (Beginner), HTML & CSS (Beginner)
- Tools & Technologies:** MEAN Stack, Data Visualization, Git
- Soft Skills:** Adaptability, Problem-Solving, Continuous Learning, Collaboration
- Languages:** English, Telugu, Hindi

## CERTIFICATIONS

- CCNA Enterprise Networking, Security, and Automation — **Cisco Networking Academy**
- Introduction to Cybersecurity — **Cisco Networking Academy**
- Python Essentials 1 — **Cisco Networking Academy**
- Python Essentials 2 — **Cisco Networking Academy**

## EDUCATION

### Bachelor of Technology in Artificial Intelligence

Anurag University | CGPA: 7.58 | 2022 – Present

### Intermediate Education

Aadhya Junior College | Percentage: 84.8% | TSBIE, 2022

### Secondary Education

Ravindra Bharathi School | CGPA: 9.8 | SSC, 2020

## PROJECTS

### Network Monitoring Dashboard

- Built a real-time network monitoring system with Node.js and Angular for tracking device performance and log data.
- Designed APIs for data collection and integrated a MongoDB database for event storage and analytics.
- Implemented alerts and diagnostics features to improve system visibility and performance troubleshooting.
- Strengthened backend data handling and frontend visualization to ensure low-latency updates.

### Yeager Groceries – Online Grocery Locator

- Technologies: Angular, Node.js, MongoDB, Express.js
- Designed and implemented a full-stack web app to help users locate nearby grocery stores.
- Developed responsive UI with Angular and Bootstrap, increasing user engagement.
- Ensured optimal performance and fast load times for improved user experience.
